

POLY 60

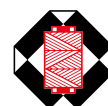

Light Polyester Thread

If It Needs to Be Small and Delicate!

POLY 60 is a thin, very fine polyester thread with the same excellent properties as Poly 40. The thread is particularly suitable for small fonts, increasing legibility significantly, and for intricate details. The results are razor-sharp letters, finely curved lines and accurate contours.

GUNOLD®

Processing Recommendations:

- ◆ **Needle:**
Use ORGAN needle No.: 60/8 SES.
 - ◆ **Bobbin Thread:**
For best results, use BOBBY SYN 130 or BOBBY FIL 110L.
-
- POLY 60 can also be used as bobbin thread if colour matching the upper thread is important (towels, scarves, etc.).
-

Care Instructions:

Tip!
Avoid short stitches
on small fonts
and details.

Technical Information:

- ◆ **Upper thread**
- ◆ **Material:**
100% Polyester
- ◆ **Size 60:**
Nm 125/2; dtex 80*2

- ◆ **Minimum order:**
1 Miniking Cone of 1.500 m

Range of colours:

discover 54 colors
(marked with * in the regular
Poly 40 color chart):
